(a) track at the response plane
arrival time [μs]
x [mm]
600 groups
244,458 e after attachment
(b) diffusion and attachment
σ [mm] / survival [%]
drift distance [m]
σT transverse
σL longitudinal
survival [%]
(c) arrival density n(x, t)
arrival time [μs]
x [mm]
electrons / bin
