Stage N
GaudiSequenceAlg
ProcessorAlg1
ProcessorAlg2
Stage N-1
nextElement(current_time)
method call on the object pointed to
run(current_time)
execute(current_time)
needUpdate
true
nextElement(current_time)
data_element
nextElement(current_time)
data_element
addData(data_collection)
status
execute(current_time)
needUpdate
false
status
execution time of the method goes downward
status
return value
sortSelf
status
method duration
data_element
